Armor & Item Guide

- The following is a list of all armor and usable items/potions.
- **NOTE**: In average difficulty, the defense points, strength values, agility values, and stat boosts are often higher than what is listed here. These values are for veteran and insane difficulties. However, immunities, bonuses, and GP costs are the same.
- **NOTE #2:** Post-game inventory is at the very bottom of the document in a "Spoiler" section.
