Weapons Guide

- The following is a list of all weapons in the game.
- **NOTE**: In average difficulty, the attack values are often higher than what is listed here. These values are for veteran and insane difficulties. However, everything else is pretty much the same.
- **NOTE #2:** Post-game inventory is at the very bottom of the document in a “Spoiler” section.

Strength-based Weapons

- These weapons deal damage based on the STR of the character using it. The damage is multiplied by the value listed below (with a bit of random mixed in) minus the defense of the monster. The character class does not impact the damage dealt by these weapons.

Item	GP	Damage	Robo HP+	Uses	Group Attack	Robo Stat Boost	Element/ Strength	Stat trained
Hammer	50	STR x 2	9	50		STR + 2		Strength
Long	400	STR x 5	9	50		STR + 2		Strength
Whip	600	STR x 5	18	40		AGL + 4		Agility
Special Note: The Whip will randomly deal extra damage when it “winds” up. Even though the Whip deals damage based on strength, it trains agility.								
Axe	1,400	STR x 7	18	50		STR + 4		Strength
Battle	3,200	STR x 9	27	50		STR + 6		Strength
Katana	6,800	STR x 12	36	50		STR + 8		Strength
Blitz	8,500	STR x 10	45	40		AGL + 10		Agility
Special Note: This whip is weaker than the Katana for Humans, but stronger for Robots. It also boosts Agility and randomly deals extra damage when it “winds” up.								
Revenge	11,000	Counter with x2 dama taken + Str x10	45	40		STR + 10		Strength
Broad	11,000	STR x 14	54	50		STR + 12		Strength
Flame	17,000	STR x 15	72	40		STR + 16	Fire	Strength
Ice	17,000	STR x 15	72	40		STR + 16	Ice	Strength
Thunder	17,000	STR x 15	72	40		STR + 16	Thunder	Strength
Coral	26,000	STR x 17	90	40		STR + 20	Vs. Insects	Strength
Defend	36,000	STR x 18	117	40		DEF + 26		Defense
Special Note: The defend sword offers 70% Evasion when used. It also has the unique trait of training the Defense stat, similar to Shields.								
Dragon	36,000	STR x 19	108	30		STR + 24	Vs. Dragons	Strength
Sun	50,000	Fixed Damage + STR x 12	144	40	Single Group	STR + 32		Strength
Special Note: The Sun Sword will attack a group of monsters. It no longer does extra damage against the undead. -Some of the fixed damage ignores defense, although a bulk of the damage still factors it in.								
Muramas	50,000	STR x 23	117	40		STR + 32		Strength
Special Note: The Muramas will deal more damage against Humans. The most powerful sword against single targets with low-moderate defense.								
Gungnir	50,000	High Fixed Damage	144	30	Single	STR + 32		Strength

		+ STR x 15			Group			
Special Note: The Gungnir will attack a group of monsters. Some of the fixed damage ignores defense, although a bulk of the damage still factors it in.								
Xcalibr	2	High Fixed Damage + STR x 16	144	Inf.	Single Group	STR + 32		Strength
Special Note: The Excalibur will attack a group of monsters. Some of the fixed damage ignores defense, although a bulk of the damage still factors it in.								
Glass	50,000	Fixed 1,250 Damage + STR Bonus	144	1		STR + 32		Strength
Seven	2	STR x 12, x 7 Hits	144	7		-		-

Agility-based Weapons

- These weapons will deal damage based on the AGL of the character (strength means nothing for these weapons). They work the exact same whether the character be a Human, Mutant, or Robot/Cyborg.

Item	GP	Damage	Robo HP+	Uses	Group Attack	Robo Stat Boost	Element/ Strength	Stat trained
Rapier	400	AGL x 5	9	50		AGL + 2		Agility
Sabre	3,200	AGL x 7	18	50		AGL + 4		Agility
Laser	11,000	AGL x 10	63	50		AGL + 14		Agility
Jitte	17,000	AGL x 12	72	50		AGL + 16		Agility
Special Note: The Jitte offers 33% Evasion when used.								
CatClaw	26,000	AGL x 14	99	50		AGL + 22		Agility

Agility-based Martial Arts

- Martial arts get more powerful as the number of uses reduces, plus whatever the multiplier

value is listed here (minus the defense of the monster). There is a slight bonus in damage if the characters AGL is higher, but in general AGL doesn't effect the damage as much with Martial Arts as it does with agility-based weapons. Robots/Cyborgs will deal little to no damage with Martial arts (even with high agility), but they will get a nice AGL stat boost by equipping them. If you have a fast Robot/Cyborg, consider agility-based weapons instead for dealing damage.

Item	GP	Damage	Robo HP+	Uses	Group Attack	Robo Stat Boost	Element/ Strength	Stat trained
Punch	50	x 2	9	80		AGL + 2		Agility
Kick	1,400	x 3	27	70		AGL + 6		Agility
Headbut	11,000	x 5	45	60		AGL + 10		Agility
X-Kick	17,000	x 7	72	50		AGL + 16		Agility
Judo	26,000	x 9	117	50		AGL + 26		Agility
Karate	50,000	x 12	144	40		AGL + 32		Agility

Mana-Based Weapons

- These weapons deal damage based on the Mana of the character using them, plus the multiplier listed below. Since Robots cannot gain Mana, these weapons are useless for them. Humans and Mutants will benefit the most from this class of weapons.

Item	GP	Damage	Robo HP+	Uses	Group Attack	Ailment Inflicted	Element/ Strength	Stat trained
PSI	1,400	Mana x 8	27	50				Mana
PSI	17,000	Mana x 12	81	50				Mana
Rune	100,000	Mana x 22	126	40				Mana
Special Note: The Rune Axe will reflect magic back to the caster when used, similar to the Mirror ability.								

Mana-Based Magic/Books

- Magic books will of course deal damage based on the Mana of the character using them. Unlike strength and agility-based weapons, magic/books will ignore the defense stat of the target and instead be affected by the Mana stat. If the target has higher mana, the magic will deal less damage. There are a few spells that ignore the mana defense of the target, however (mentioned in the special notes).
- **NOTE:** If using insane difficulty, some magic books will deal about 1 point less in damage.

Item	GP	Damage	Robo HP+	Uses	Group Attack	Ailment Inflicted	Element	Stat trained
Fire	6,800	Mana x 8	45	30	Single Group		Fire	Mana
Ice	6,800	Mana x 8	45	30	Single Group		Ice	Mana
Thunder	6,800	Mana x 8	45	30	Single Group		Thunder	Mana
Fog	6,800	Mana x 8	45	30	Single Group		Poison	Mana
Holy	6,800	Mana x 13	45	30	Single Group		Holy	Mana
Special Note: Holy only works on Undead monsters. Unlike other magic, it ignores mana defense.								
X-Stone	11,000	-	63	15	Single Group	Stone	-	Mana
Death	17,000	-	81	15	Single Group	Death	-	Mana
Mage	17,000	Mana x 9	81	15	ALL		Fire	Mana
Wizard	36,000	-	117	15	ALL	Death	-	Mana
Cyclone	36,000	Mana x 10	117	30	Single Group		Non-Elemental	Mana
PSI	50,000	Mana x 14	144	30	Single Group		Non-Elemental	Mana
Special Note: The PSI Gun is in this category because it works the same as books.								

Flare	50,000	Mana x 11	144	10	ALL		Non-Elemental	Mana

Mana-Based Cure Magic/Books

- Cure magic uses the Mana of both the caster and the target multiplied by the amount shown below to calculate the amount healed.

Item	GP	Damage	Robo HP+	Uses	Group Attack	Ailment Inflicted	Element/ Strength	Stat trained
Cure	6,800	Mana x 4	45	30	Single Group			Mana
Heal	3,200	Mana x 4	81	15	ALL			Mana

Fixed Damage Weapons

- This category of weapons does not deal damage based on the stats of the user. The damage instead follows a formula (although a bit randomized). The values below show the average damage BEFORE defense is factored in. Some weapons will completely ignore defense, however. Robots/Cyborgs will often get a damage bonus with various guns in this list.

Item	GP	Damage	Robo HP+	Uses	Ignore Def	Robo Stat Boost	Hit%	Element	Group Attack	Stat Trained
Bow	50	50	9	50		AGL + 2	60%			Agility
Colt	1,400	100	18	50		STR + 2	55%			Strength
R-Punch	3,200	200	27	30		STR + 6	75%			Strength
SMG	6,800	215	45	30		-	100%		Single Group	-
Gold	6,800	320	27	50		AGL + 6	100%			Agility
Musket	8,000	350	45	50		STR + 10	85%			Strength
Grenade	11,000	365	63	30		-	100%		Single Group	-
FlameTw	17,000	430	81	30		-	100%	Fire	Single Group	Mana
Bazooka	17,000	490	81	30		-	100%		Single Group	-
Magnum	17,000	600	63	50		STR + 14	100%			Strength
Vulcan	26,000	660	99	30		-	100%		Single Group	-
Abacus	32,000	660	99	30		AGL + 22	100%		Single Group	Agility
Tank	36,000	850	117	20		-	100%		Single Group	-

Beam	36,000	500	81	30	YES	AGL + 18	100%			Agility
Special Note: The Beam gun can often be overlooked, but the defense ignoring property makes it deal more damage on most bosses than the tank.										
Samurai	36,000	1000	27	30		AGL + 24	100%		Single Group	Agility
Missile	36,000	300	117	10	YES	-	100%		ALL	-
NukeBomb	50,000	500	144	10	YES	-	100%		ALL	-

Other

Item	GP	Uses	Robo HP+	Robo Stat Boost	Stat Trained	Other Effect
Chainsaw	6,800	30	36	STR + 8	Strength	Instantly kills target if Strength of user is at least 9 less than the target's defense. If target has O-weapon, strength must be x2 the defense of the Target (-9). Bypasses immunity to death. Doesn't work against some bosses.
Temptat	6,800	30	9		Mana	Confuses single group of monsters.
Hyper	50,000	3	144	-	-	Eliminates all foe. Doesn't work on bosses and some endgame foe. **NOTE:** Monsters will in fact drop meat and items when this is used, despite what multiple guides say online…

SPOILER: Rare Weapons + Post-Game Weapons:

Item	GP	Damage	Robo HP+	Uses	Group Attack	Robo Stat Boost	Element/ Strength	Stat trained
Captain	2	STR x 20	-	Inf.		-		-
Special Note: This sword can only be used by Captain/Dad. He cannot unequip it. It also offers Evasion +50% when used.								
Falcon	250,000	STR x 10, x 2 Hits	144	30		AGL + 32		Agility
Asi	2	STR x 27	144	Inf.	Single Group	STR + 32		Strength
Special Note: The Asi sword offers evasion +80% when used along with reflect (same as Mirror).								
Railgun	550,000	1,275 Dmg. Average	126	30		AGL + 28	Ignores Def.	Agility
Special Note: The Railgun ignores defense just like the Beam Gun, but is significantly more powerful.								
Trident	300,000	900 Dmg. Average	144	30	ALL	STR + 32	Ignores Def.	Strength
Special Note: Trident is similar to NukeBomb, but significantly more powerful + ignores defense.
